INSTALLATION MANUAL FOR PAYU'S OPENCART PLUGIN

Opencart is a free platform developed in PHP used to create online shops. OpenCart provides a professional and reliable base on which an online shop can be build; this base appeals to a wide variety of users; ranging from web developers seeking a user-friendly interface, to shop owners who want to launch their first online business. OpenCart has a huge amount of features that provide a strong control over your shop's customization.

Prerequisites:

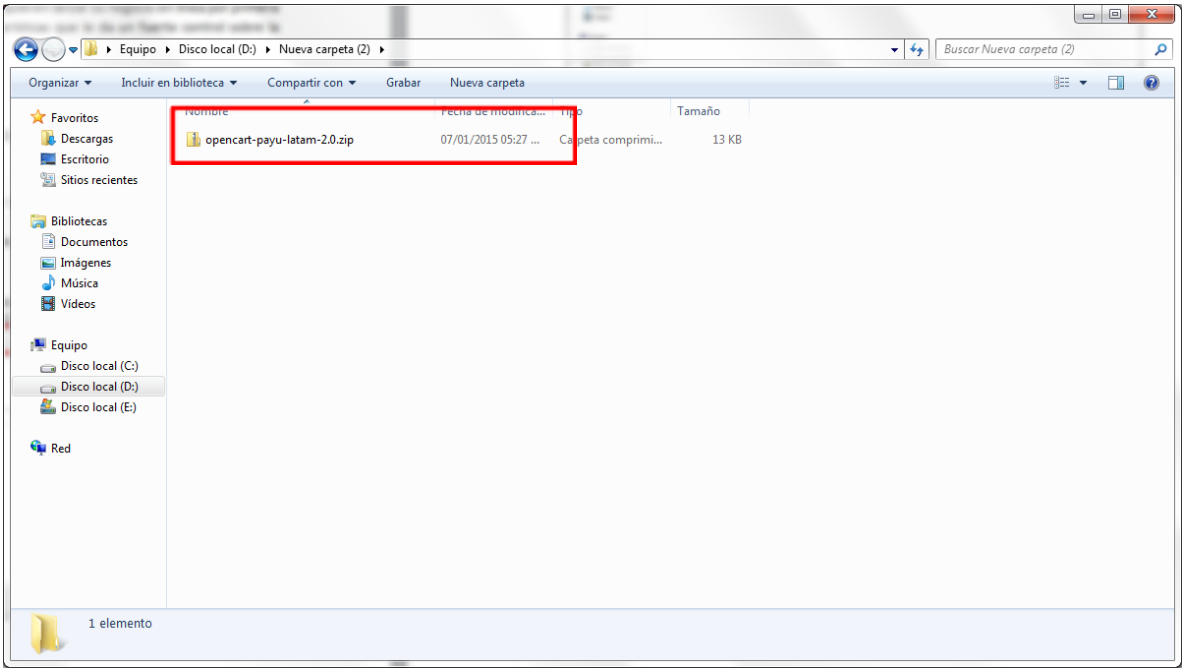
1. Have a Payu Latam account.
2. Have OpenCart version 2.0.1.0 or 2.0.1.1 installed.

Installation of Payu Latam's plug-in OpenCart:

1. Download Payu Latam's plugin for OpenCart from the following URL:

   http://developers.payulatam.com/plugins/plugin-opencart-2.0.zip

2. A .zip file named 'opencart-payu-latam-2.0.zip' must have downloaded.



3. Decompress the file and open the decompressed folder.

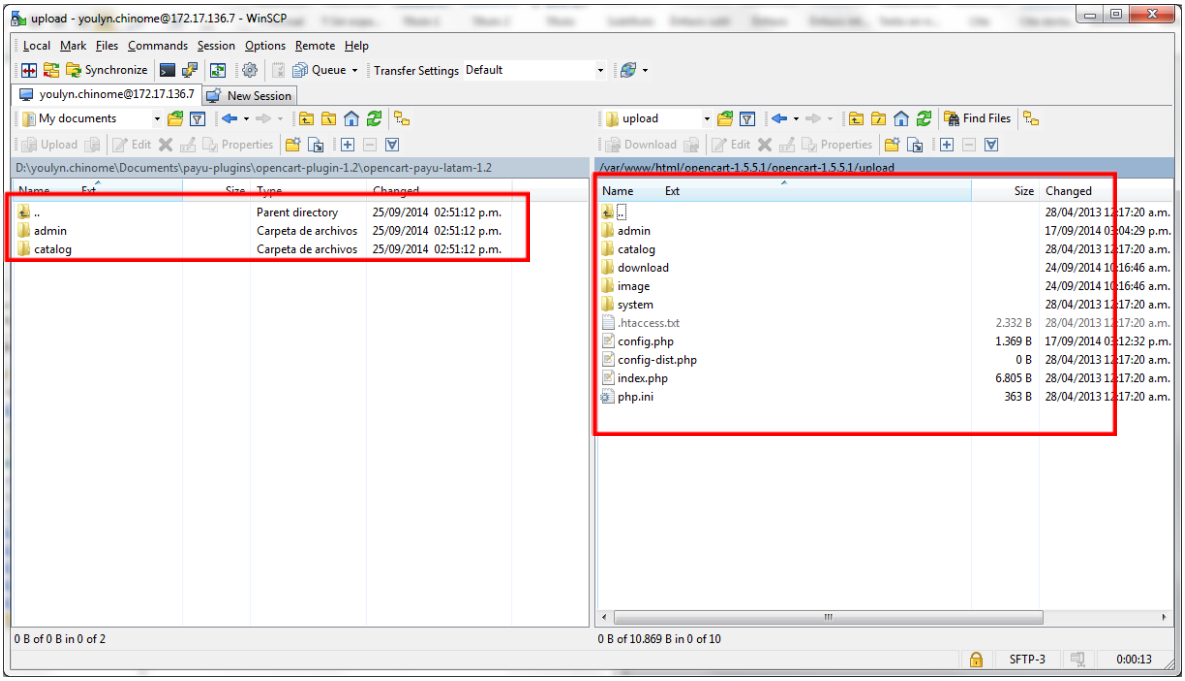
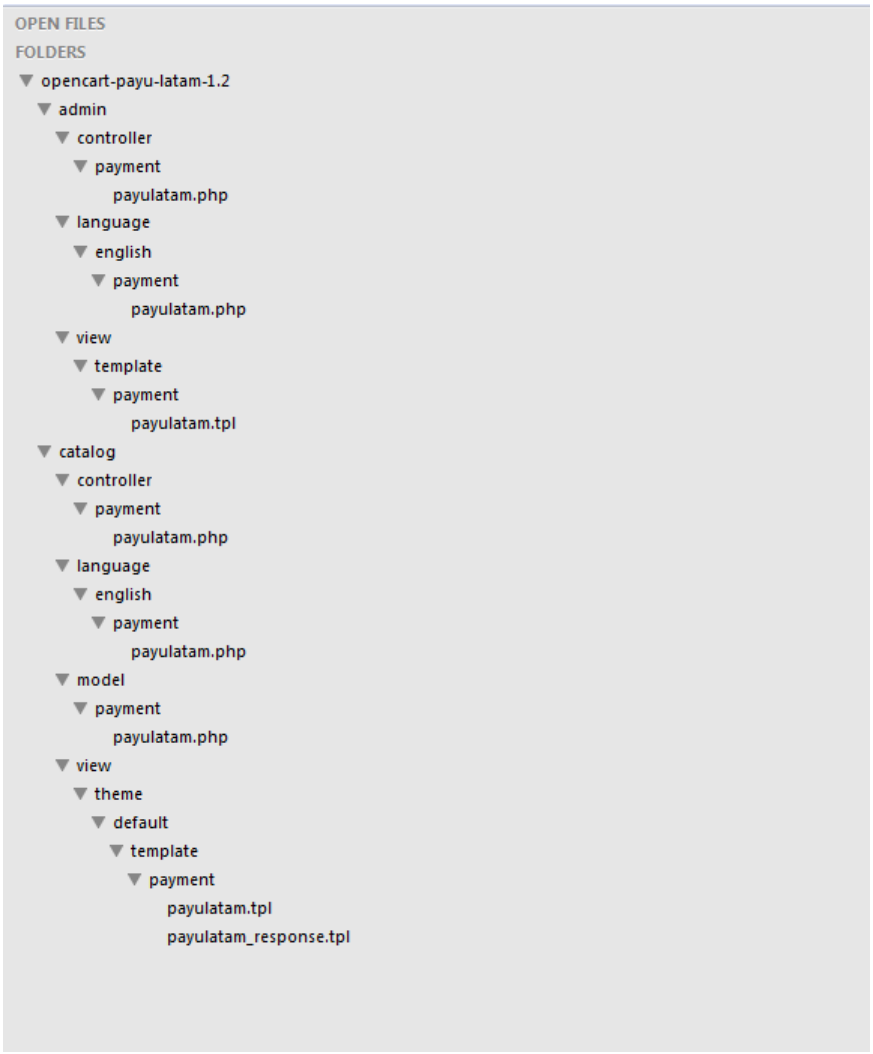
4. Using an FTP client or program which allows to transfer your files from your local computer to your server, drag the plugin's 'admin' and 'catalog' folders to the root of Opencart's installation on your server.

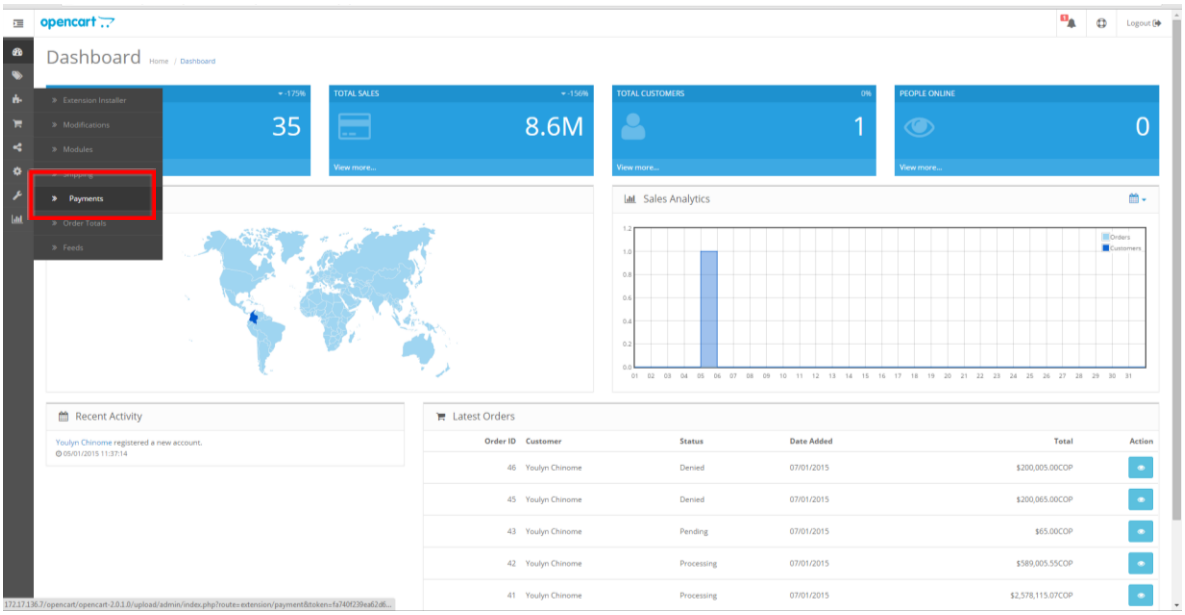


Be careful to “drop” the folders into the empty white space of the location so that no other folder is erroneously selected and the ‘admin’ and ‘catalog’ folders don’t turn into subfolders.

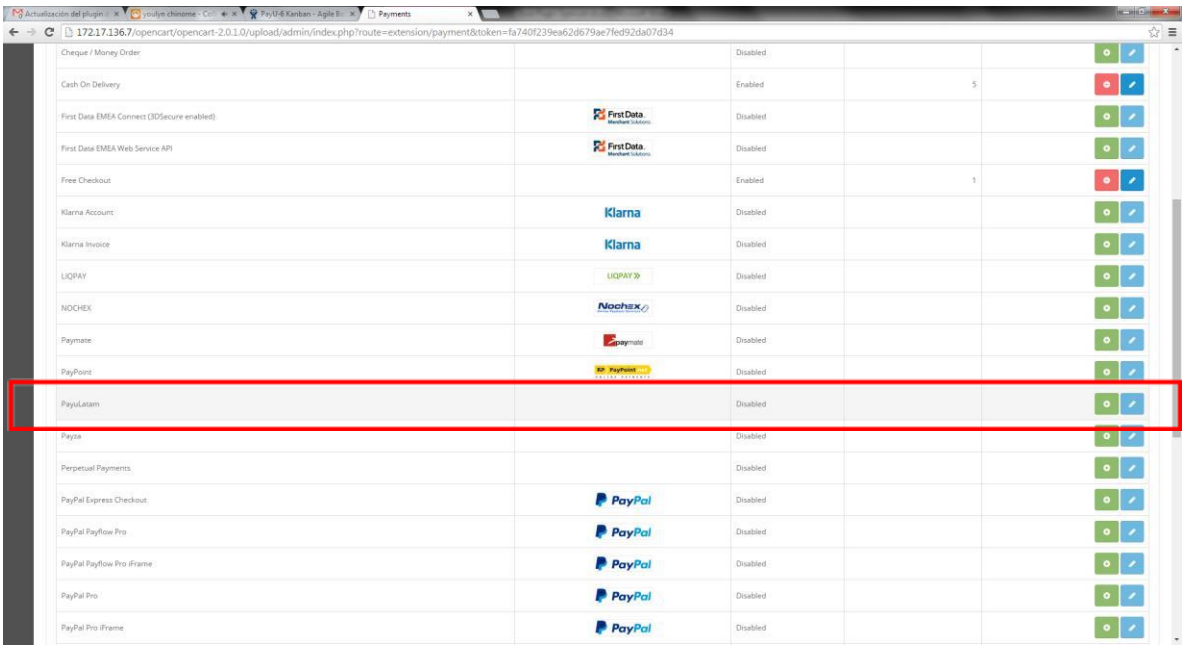
5. The former action will add the plugin files into the right location. You may verify if the action was correct by searching for the following files in the locations as shown in the following image:



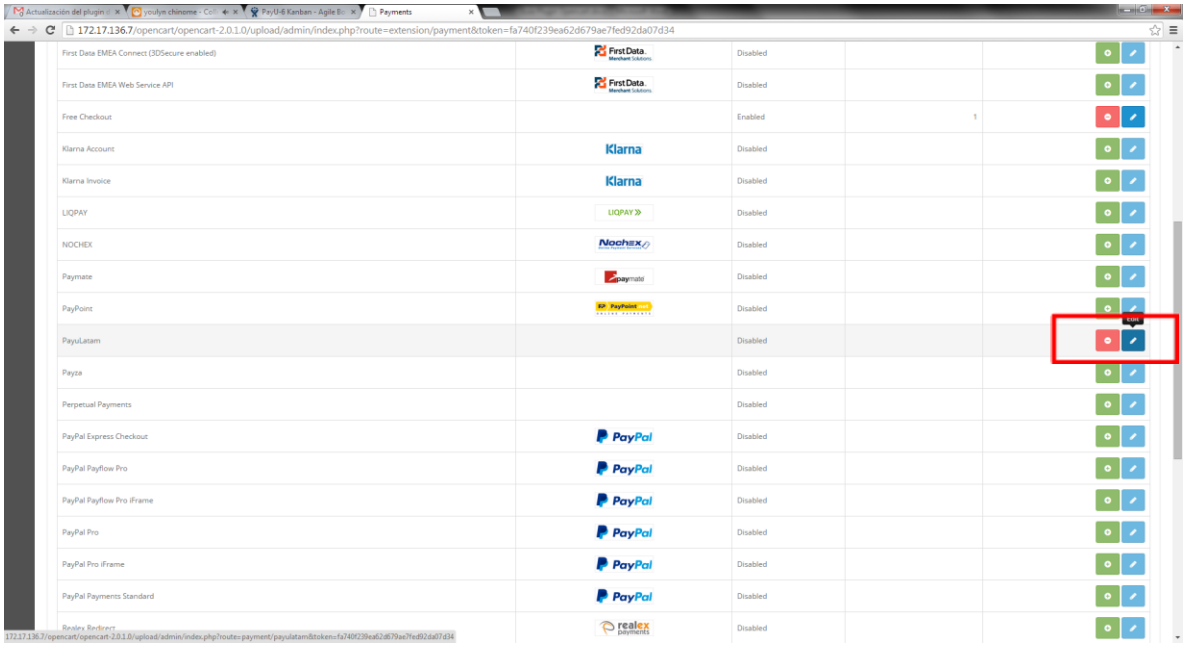
6. While you are in the admin of your shop in Opencart go to the Extensions>>Payments menu.

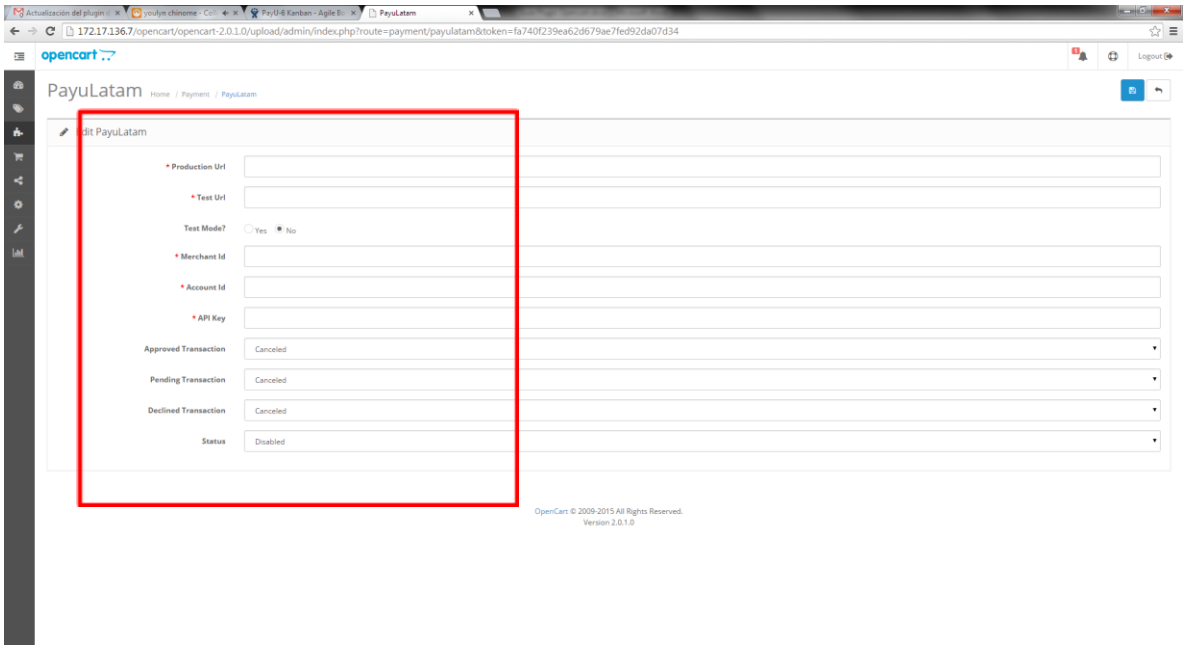


7. Search for the ‘PayuLatam’ payment means in the payment means table.



8. Click on the Install option and then on the Edit option.

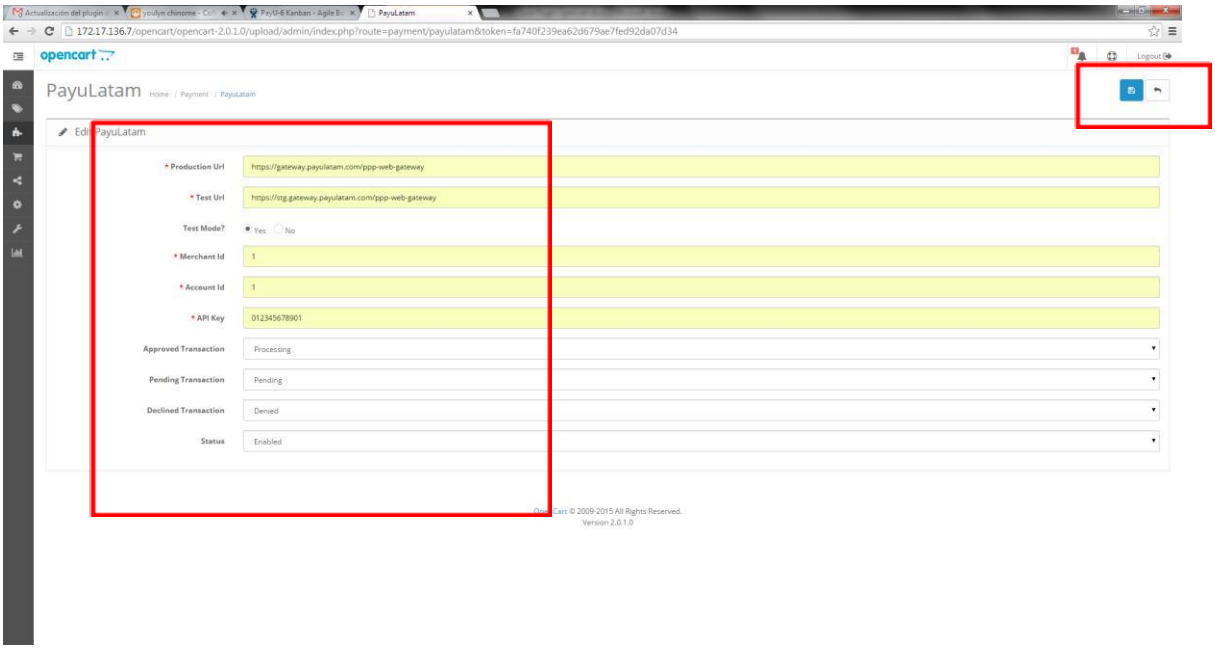




9. Configure your account data in PayU Latam as follows:

Field	Value
Production URL	PayU Latam's URL in production https://gateway.payulatam.com/ppp-web-

	gateway/
Test URL	PayU Latam's test URL https://sandbox.gateway.payulatam.com/ppp-web-gateway
Test mode?	If you want to make transactions in test mode, select the "Yes" option.
Merchant ID	Shop's ID in PayU Latam.
Account ID	Account's ID according to country
API Key	This is provided by PayU Latam and is unique for the shop.
Approved Transaction	Order/request status in the Opencart shop when PayU Latam has approved the transaction.
Pending Transaction	Order/request status in the Opencart shop when the transaction is pending in PayU Latam.
Declined Transaction	Order/request status in the Opencart shop when the transaction has failed in PayU Latam.
Status	Select the 'Enable' option to show that you are enabling the Opencart's payment means.



(Test URL: https://sandobox.gateway.payulatam.com/ppp-web-gateway)

Now your clients will be able to pay through PayU Latam when they checkout the Opencart's shopping cart.
