

MANUAL DE INSTALAÇÃO E CONFIGURAÇÃO PLUGIN PAYU LATAM PARA O MAGENTO

1. Pré-requisitos

- Possuir uma conta ativa no PayU Latam.
- Ter o Magento versão 1.7 instalado.

2. Instalação

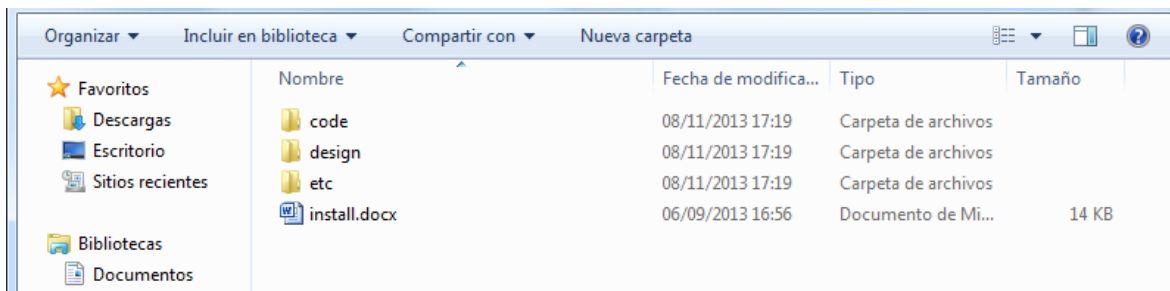

- Antes de instalar o plugin desative o cachê do Magento. Para isso veja System > Cache Management, selecione todos os cachês. Na lista constante na parte superior direita selecione a opção “Disable”, em seguida, clique no botão à direita, “Submit”.

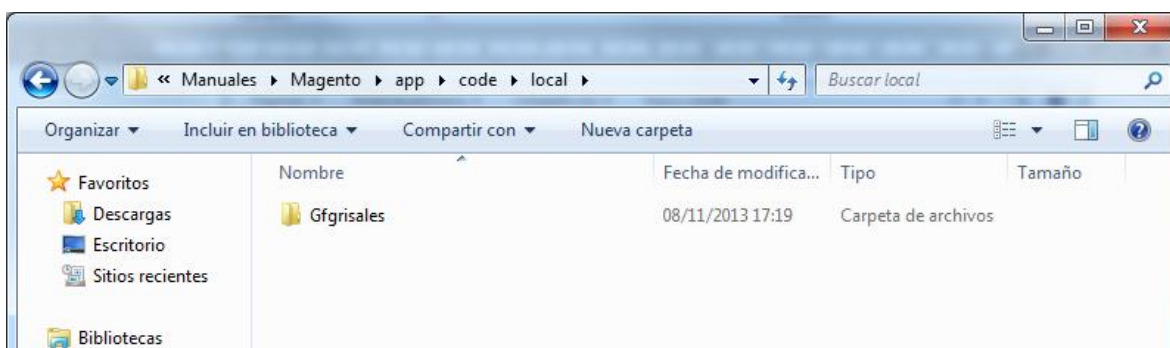

The screenshot shows the Magento Admin Panel interface. At the top, there's a navigation bar with tabs like Dashboard, Sales, Catalog, Mobile, Customers, Promotions, Newsletter, CMS, Reports, and System. Below this is a 'Cache Storage Management' section. It contains a table with columns for Cache Type, Description, Associated Tags, and Status. The 'Status' column has a 'Disable' button for each row. A red box highlights the 'Disable' button for the 'Configuration' cache type. Another red box highlights the 'Submit' button at the top right of the table. Below the table, there's an 'Additional Cache Management' section with buttons for 'Flush Catalog Images Cache' and 'Flush JavaScript/CSS Cache'.

- Fazer download do plugin do PayU para o Magento, que você encontrará nesta seção.
- Descompacte o arquivo plugin-magento-1.2-zip. A pasta descompactada chama-se “app” e contém:
 - a. code
 - b. design
 - c. etc

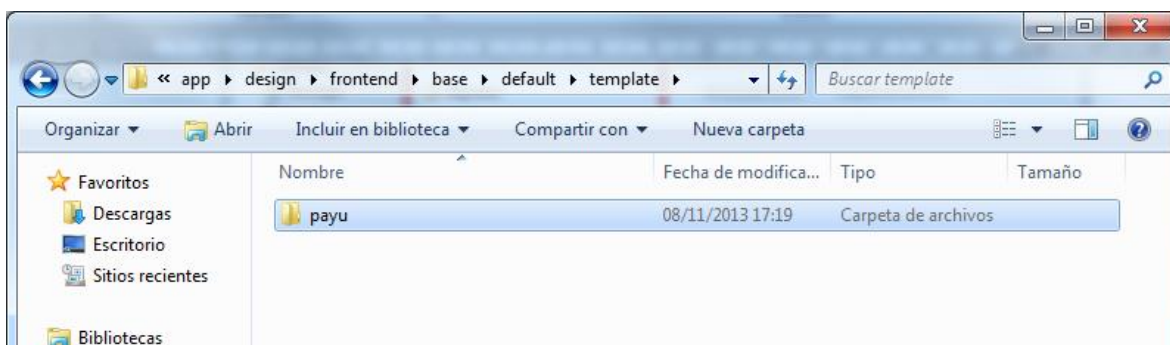

d. install.doc

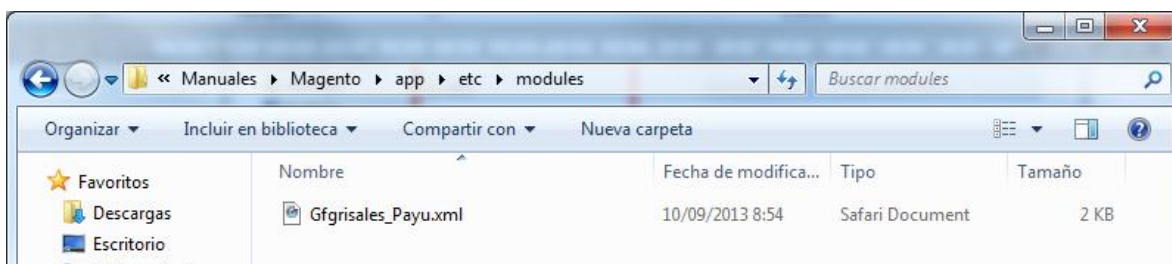

- Copie a pasta “Gfgrisales” que se encontra em “app/code/local”, dentro da pasta “local” localizada no diretório raiz da instalação do Magento, o qual se encontra na pasta “app/code”. Se a pasta “local” não existir dentro do caminho do Magento, você deve criá-la e, em seguida, copiar os arquivos indicados. Certifique-se de que todas as pastas estejam com todas as permissões de leitura/escritura.

- Agora copie a pasta “payu” do caminho “app/design/frontend/base/default/template/payu” do arquivo descompactado, dentro do caminho “app/design/frontend/base/default/template”, que está no diretório raiz da instalação do Magento.

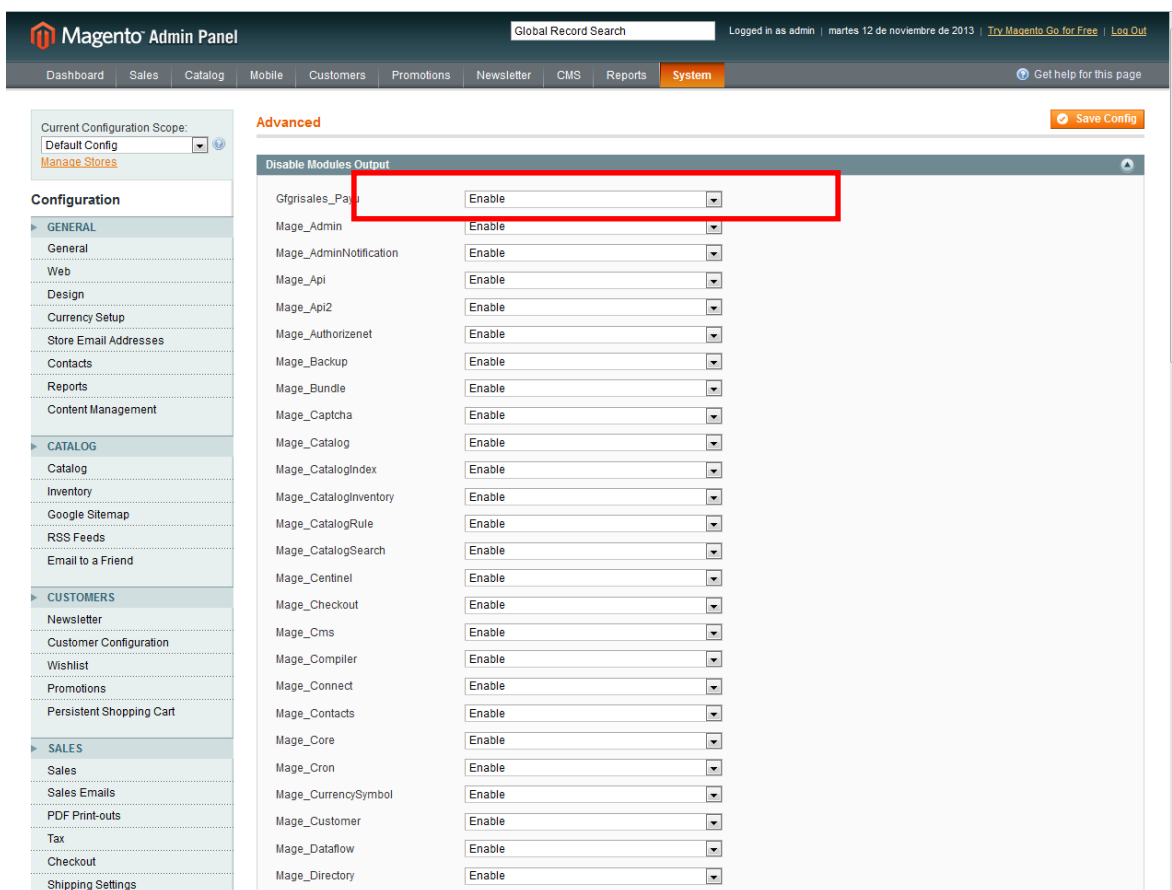

- O último arquivo que você deve copiar é o “Gfgrisales_Payu.xml”, que está em “app/etc/modules” do arquivo descompactado. Este você deverá copiá-lo dentro da pasta “app/etc/modules”, que está no diretório raiz da instalação do Magento.

Configuração da forma de pagamento PayU Latam:

1. Entre no administrador do Magento e vá ao menu System > Configuration > Advanced > Advanced. Ali, clique em “Disabled Modules Output” e habilite a extensão do PayU, denominada “Gfgrisales_Payu”.

2. Em seguida, ainda na Configuração, clique em “Sales > Payment Methods”, onde aparecerá a forma de pagamento do PayU. Para abrir a aba clique nela.
