

## INSTALLATION AND SETUP HANDBOOK OF PAYU LATAM'S PLUGIN FOR WOOCOMMERCE

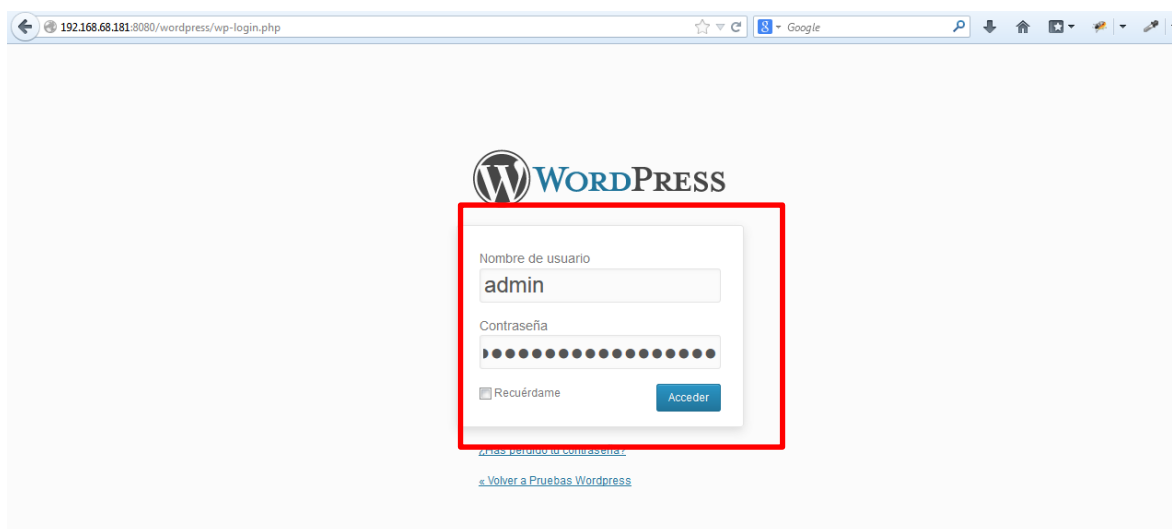

WooCommerce is a Wordpress plugin that facilitates the creation of an online store integrated to the current site. So that your customers can pay through PayU from your Wordpress site using WooCommerce, you must install PayU's plugin for WooCommerce, which notifies PayU's presence as a valid payment gateway to WooCommerce.

### Requisites:

1. Having an account in PayU Latam.
2. Have Wordpress 3.8 or higher installed.
3. Have WooCommerce version 2.0 or higher installed on the Wordpress site.

Installing PayU's plugin for WooCommerce:

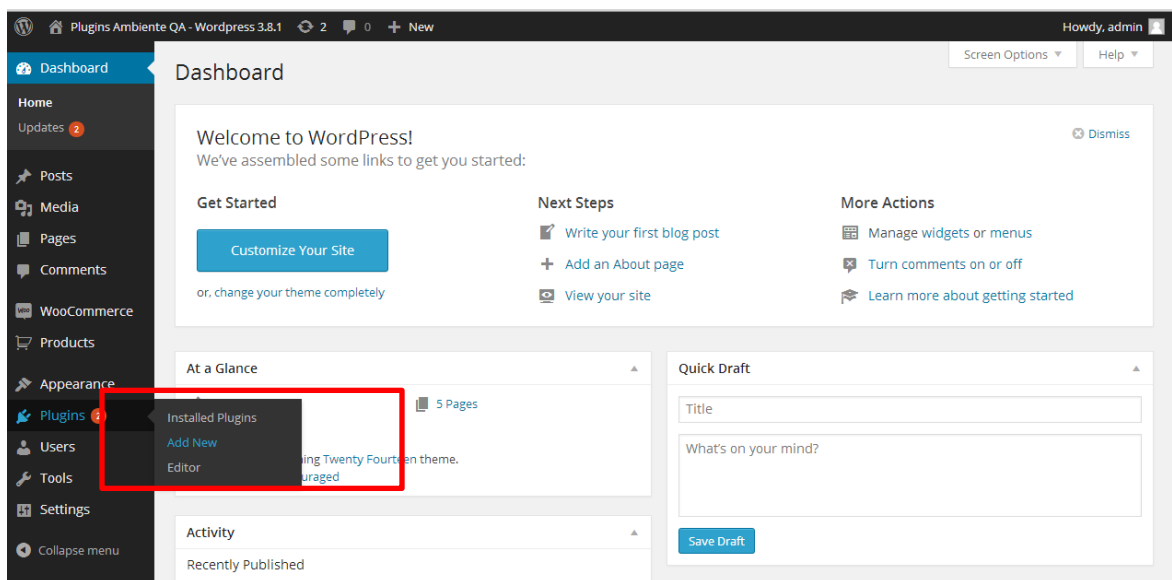

1. Login as administrator to your Wordpress site.

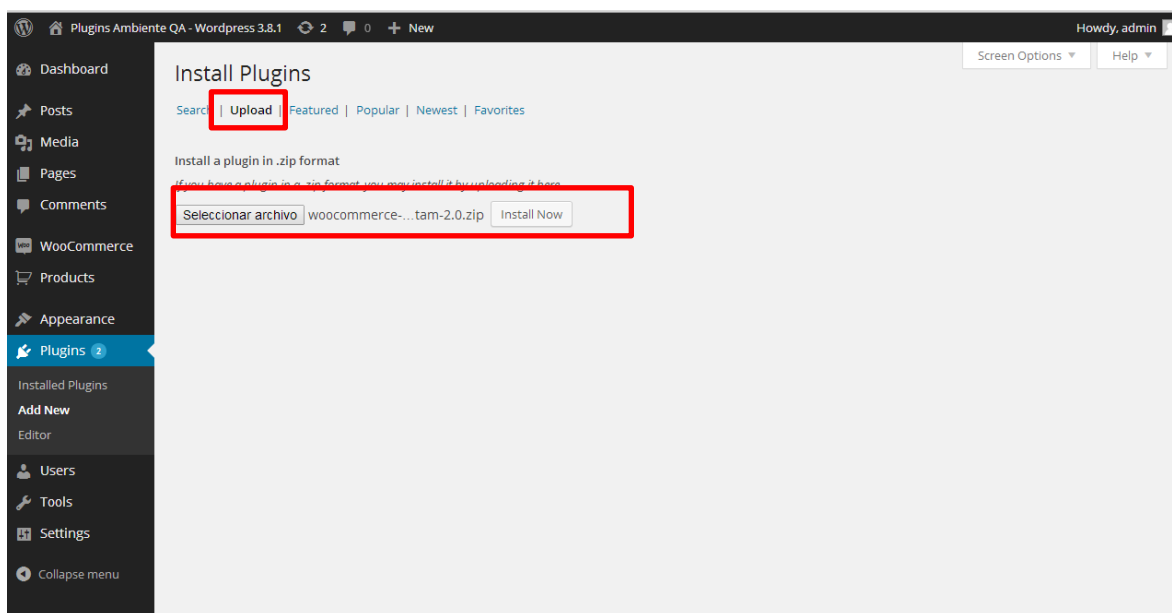

2. Download PayU's plugin for WOOCOMMERCE which you will find on this page.

3. On the Wordpress desktop manager you must access the "Plugins" menu and you should click "Add New".

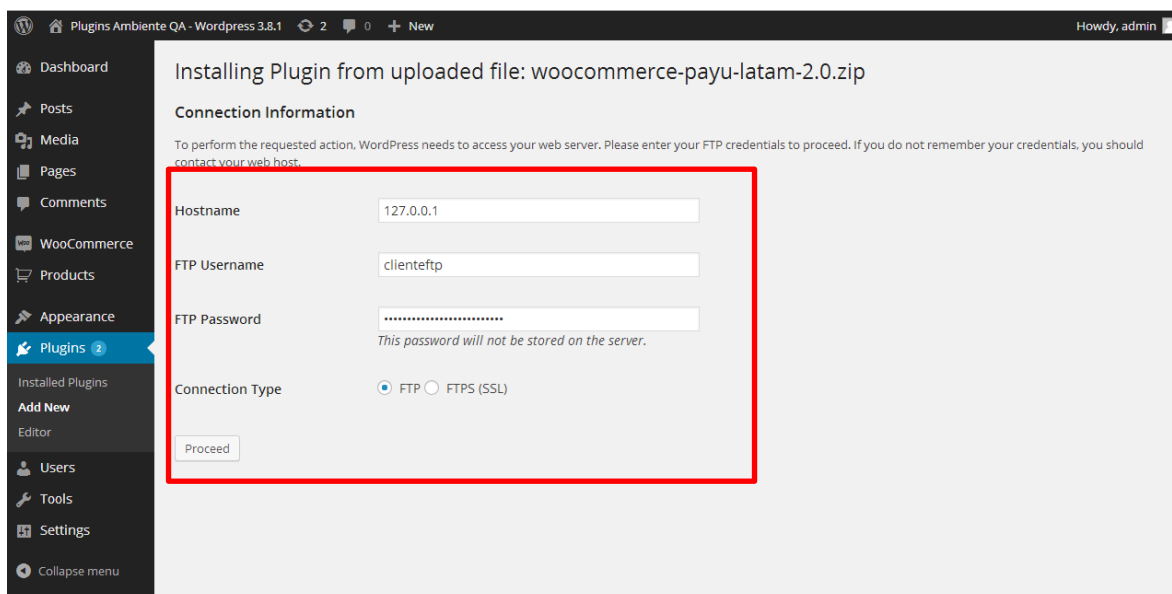

- Then select "Upload" option and choose the file that contains PayU's plugin for WooCommerce, which you already downloaded. Click the "Install Now".

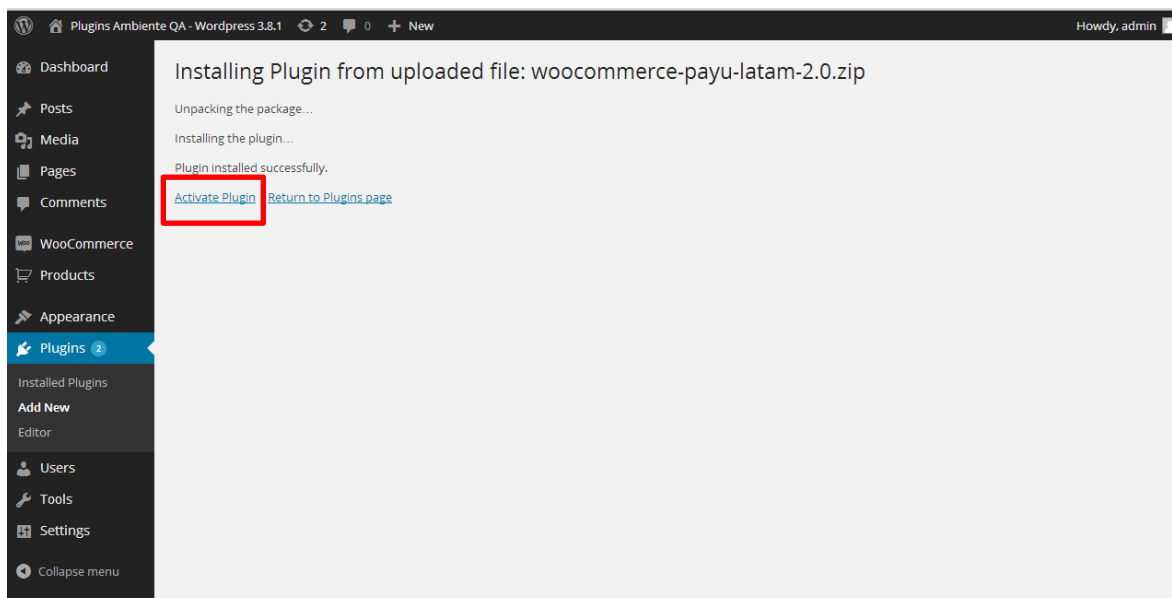

- Indicate the FTP connection data and select the "Execute" button.

**NOTE:** The execution of this step depends on the initial configuration of Wordpress, it is possible that in some cases you will not see this screen; this does not affect the installation process of the plugin.

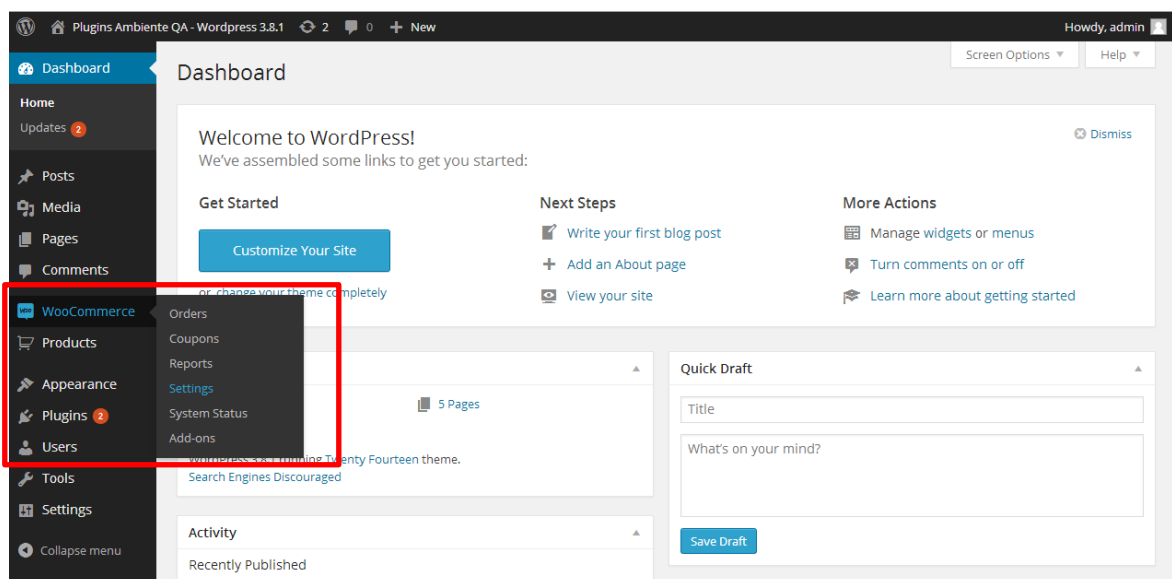

6. Finally activate PayU's plugin which you just installed.

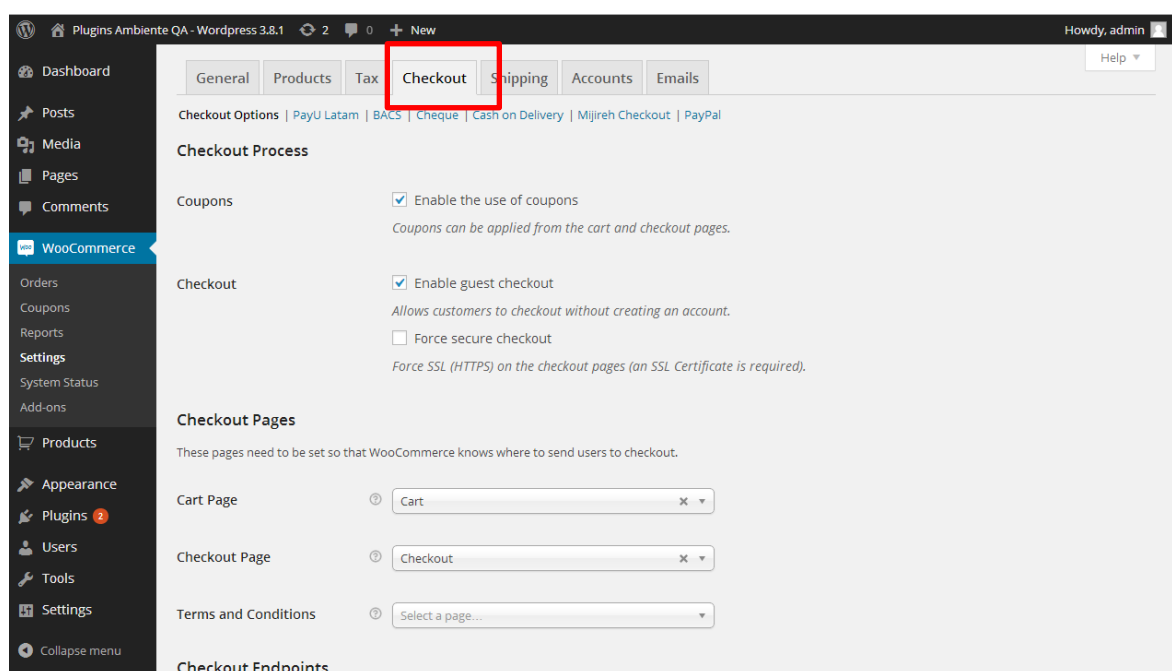

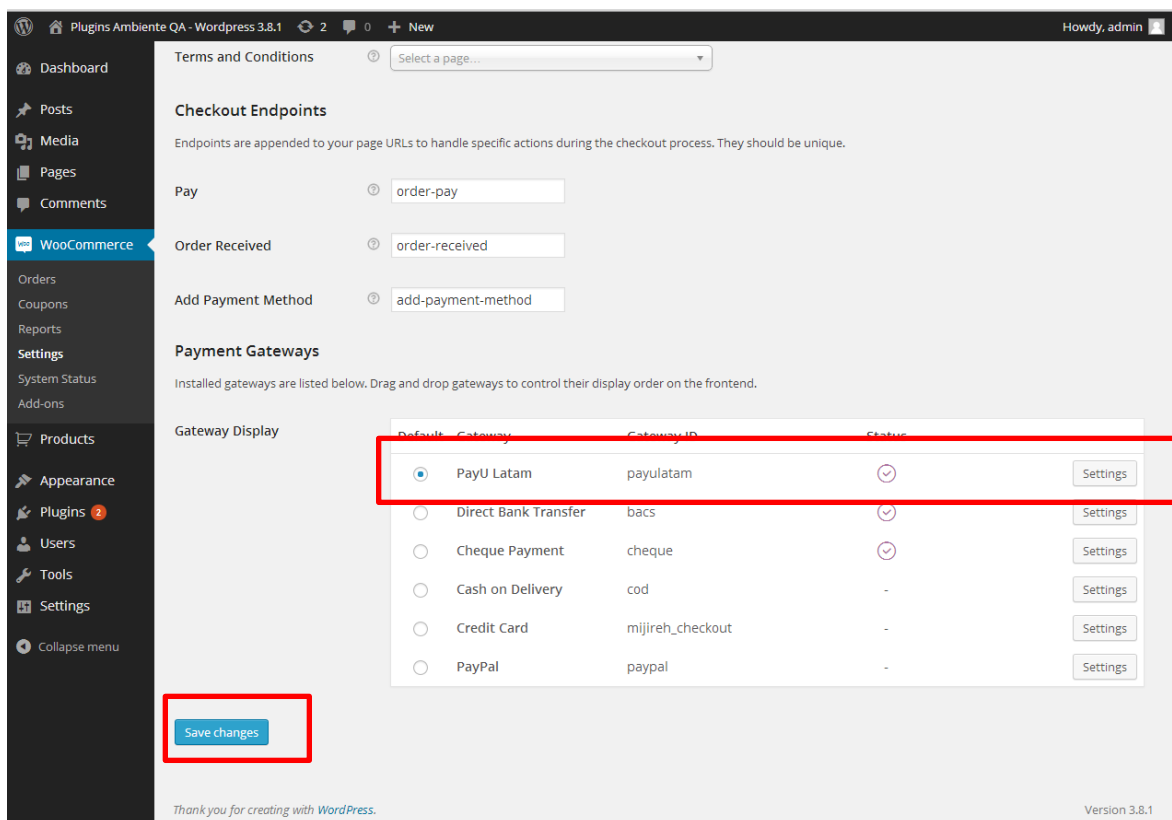

### Setup of PayU Latam's payment Gateway in Woocommerce:

1. Select the WooCommerce menu in the "Settings" option.

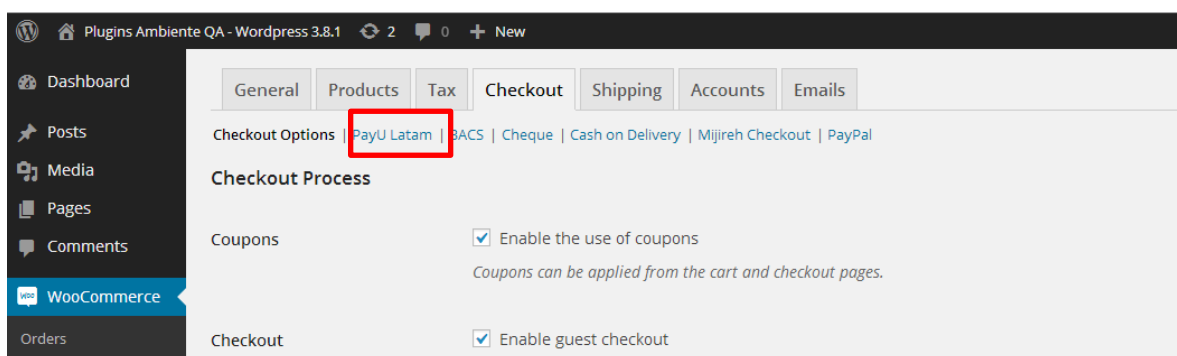

2. Enter the "Checkout" tab, placing the cursor on the "PayU Latam" gateway from the "Payment Gateways" table, you must make a sustained click and drag the gateway to the first position of the table. Select it as default, selecting the radio button of the "Default" column and save the changes.

- After saving the changes you must click on the “PayU Latam” link :

- On the screen below, configure your account details in PayU Latam as follows:

Field	Value
Enable / Disable	Select the checkbox to indicate that you enable the Woocommerce payment gateway.
Title	By default "PayU Latam" appears. If you want you can change it.
Merchant ID	Shop's PayU Latam ID.
Account ID	Account ID by country.
API Key	This is provided by PayU Latam and is unique for the shop.
Gateway URL	URL of PayU Latam. To test you can use the <a href="https://stg.gateway.payulatam.com/ppp-web-gateway">https://stg.gateway.payulatam.com/ppp-web-gateway</a> URL and for production <a href="https://gateway.payulatam.com/ppp-web-gateway/">https://gateway.payulatam.com/ppp-web-gateway/</a>
Transactions in test mode	If you want to make transactions in test mode, activate the checkbox
Response page	<p>URL of the page response. By default the <a href="http://su.dominio.com/wp-content/plugins/woocommerce-payu-latam/response.php">http://su.dominio.com/wp-content/plugins/woocommerce-payu-latam/response.php</a> URL appears, in which you must replace "http://your.domain.com" by the one corresponding to your site. Leave the rest of the URL as is if you want to use the response page that comes built into PayU Latam's plugin for Woocommerce.</p> <p><b>Note:</b> If your response page is not working, it is useful to validate that the URL is in the same location where is the response.php. archive.</p>
Confirmation page	The confirmation page URL. By default the URL <a href="http://your.domain.com/wp-content/plugins/woocommerce-payu-latam/response.php">http://your.domain.com/wp-content/plugins/woocommerce-payu-latam/response.php</a> appears, in which you must replace "http://your.domain.com" by the one corresponding to your site. Leave the rest of the URL as is if you want to use the confirmation page that comes built into PayU Latam's plugin for Woocommerce.

**Note:** If your confirmation page is not working, it is useful to validate that the URL is in the same location where is the confirmation.php. archive.

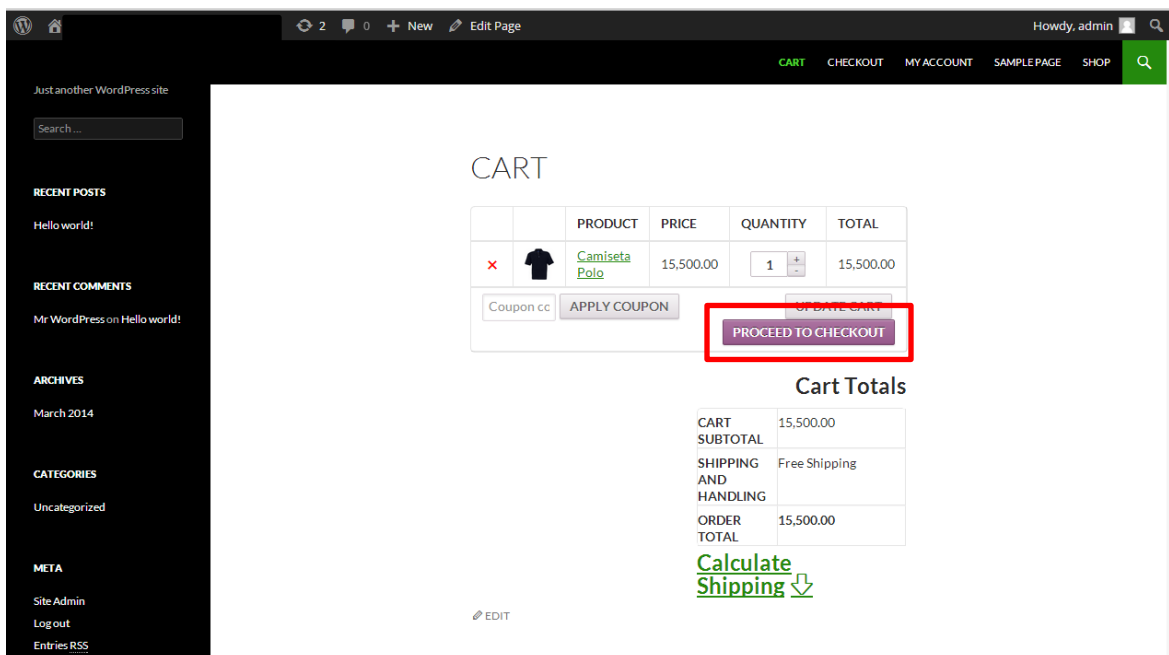

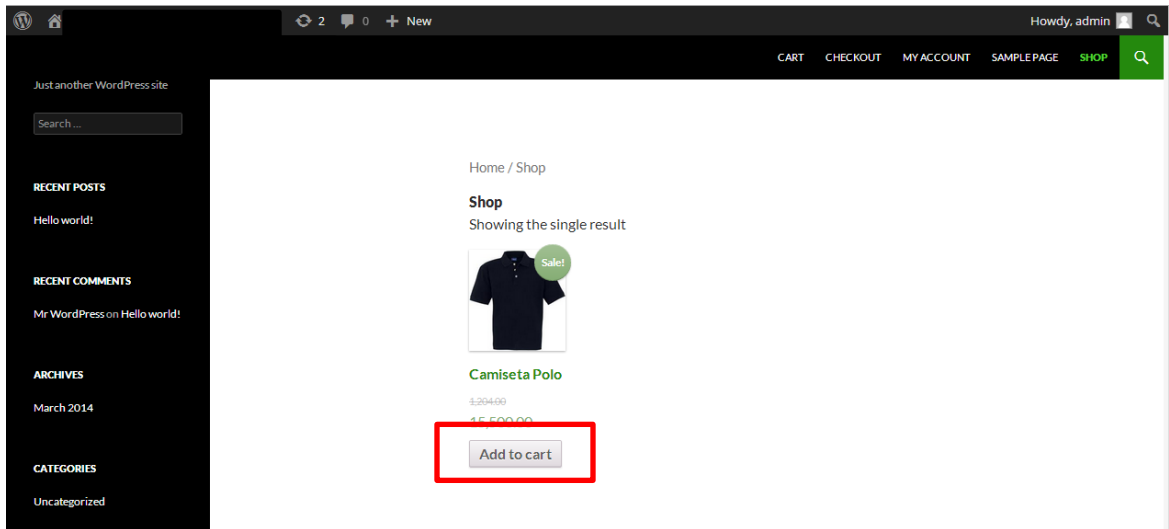

The screenshot shows the WordPress admin dashboard with the 'PayU Latam Payment Gateway' settings page. The settings are as follows:
